MONDAY, FEBRUARY 8. 1742.

Yesterday arriv'd a Mail from Holland.

Extract of a Letter from Constantinople, of Dec. 6.

UPON Advice that the Russians have entirely demolish'd Asoph, pursuant to the Treaty of Belgrade, the Ratifications of it are exchang'd, and the Russian Ambassador is preparing to go home. Tho' the Porte don't want to be inform'd of what has happen'd with regard to the House of Austria, they don't shew any Inclination to meddle with their Affairs, or to seize the Bannate of Temeswaer on pretence of covering Belgrade, as was reported some Time ago; on the contrary, 'tis said they have resolv'd to live in a perfect good Understanding with that of Vienna. The Situation of their Affairs with regard to Persia, contributes not a little to this Conduct of the Ottoman Ministry. It was believ'd that the Accommodation with Kouli Kan was in a manner concluded, but their last Advices from Asia have destroy'd those Hopes; for they are inform'd that the said Conqueror, of whom they had receiv'd no News a good while, had been to make a Tour to Ispahan, and had since rejoin'd his Army; and that the Lands, whose Country stretches along the Eastern Banks of the Tigris, from the Euphrates to Chusistan, have submitted to him, and that 5000 Turks had been totally defeated by the Persians near Erzerum in Turcomania upon the Euphrates. 'Tis also reported that the City of Bagdad had submitted to Kouli Kan; but perhaps this Rumour is propagated with a Design to prepare People's Minds the better for the News of the Loss of that Place, in case the Porte should think fit to yield it to the Persians, for the Sake of avoiding a War, the Consequences of which are terribly apprehended. The Turks have such an Aversion to it, that the Spahis who were appointed to go to Asia revolted, and the meer Report that a good Number of Janizaries was also to be sent thither, rais'd a considerable Fermour in this City, the Consequences of which might have been very fatal, if Money had not been expended to quash it, which was the Remedy made use of to stop the Revolt of the Spahis. There was a Fire during this Insurrection which consumed 1200 Houses.'

Petersbourg, Jan. 23. N.S. The Company of 300 Grenadiers which the Empress has dignify'd with Nobility, has mounted Guard for some Days past with the fine Cloaths which her Majesty has provided for them. She gives them no other Name than her CHILDREN, and they call her their MOTHER. One of them having forgot himself lately so far as to commit a Crime which could not escape with Impunity, the Empress order'd immediately that he should be degraded and reduc'd to the Rank of a common Soldier. Then she call'd the whole Company before her, and said, 'Learn all by the Example of your Comrade, that as I have rais'd you all to be Gentlemen, it is that you may answer that Character by your Behaviour, or else you cannot expect I should treat you as my Children: Consequently, any of you that shall misbehave in your Station must expect to fare no better than the Person I have now degraded.' All the Money coin'd with the Stamp of Prince John is order'd to be brought to the Mint within a Year, to be exchang'd there for with some Loss, after which Term it will be cry'd down of no Value. The Count de Munich is very ill in the Citadel, where he has sometimes Convulsions. The Baron d'Osterman, who continues also very ill, has with the Empress's Leave receiv'd a Letter from the Baron d' Osterman his Brother, who was the Duke of Mecklemburgh's Minister at this Court, and who having an Order to retire wrote this Letter to him as his last Farewell. The Count having had her Imperial Majesty's Permission to return him an Answer, concluded his very moving Letter as follows: 'After having wish'd you, dear Brother, all the Happiness this World can afford for the Remainder of your Days, I also take my Leave of you for ever, and beg you to join with me in my Prayers that the Almighty will be pleased to pardon all my Sins.'

Extract of a Letter from Madrid, of Jan. 23.

'The King being now in better Health than for a long Time past, gives more Attention than ever to Publick Affairs. As he has it very much at Heart to see Don Philip in Possession of the Settlement design'd for him in Italy, Don Campillo has represented to him, that tho' the Forces sent to that Country amount to more than 30000 Men, it would perhaps be necessary to augment them with some more thousands, especially if the Duke de Montemar be oblig'd to form any Sieges in Lombardy. This has determin'd his Majesty to send Orders to all the Provinces of the Kingdom, to engage one fifth Part of his Subjects, who are of a fit Age and Condition, to bear Arms. According to a Calculation made thereof, and given in to the War-Office, it appears that the Whole will amount to 21039 Men. As for the rest the Court is perfectly tranquil, and Don Campillo is more than ever in their Majesty's Favour.'

Whitehall, Feb. 6. By his Majesty's Ship the Suffolk, commanded by Capt. Davers, arrived at Spithead from Jamaica there is Advice, that Major General Wentworth, with the Forces under his Command, was return'd, on the 29th of November last, to Port Royal in Jamaica, having found it necessary to withdraw them from the Island of Cuba, upon account of the Sickness, which was increasing greatly amongst them.

And there are also Letters from Vice Admiral Vernon, dated the 10th of December, at which time he was, with the Fleet, out upon a Cruize, in order to meet the Reinforcement expected from England.

The Coronation of the new Emperor was put off to last Monday.

The Report that the Canton of Lucern had embrac'd the Protestant Religion does not prove true.

They conceive great Hopes at Munich that there will shortly be a Suspension of Arms, the rather because 'tis said, that in case the Queen of Hungary refuses to consent to it the Allies have resolv'd to penetrate into her Country with an Army of 72,000 Men, viz. 28,000 French and Bavarians, 16,000 Prussians, 12,000 Saxons, and 16,000 Men of the Troops of the Electors of Cologne and the Palatinate.

They write from Italy, that the Queen of the Two Sicilies is brought to bed of a Princess.

The King of Prussia arriv'd the 18th ult. at Olmutz in Moravia, and 'twas assur'd that he was preparing to take on him the Command of the Confederate Army, which is in full March to the Number of above 60,000 Men.

The Post from Vienna and Austria not being arriv'd at Ratisbon on the 25th ult. they then knew nothing certain of Count Khevenhuller's Army nor of the Progress of the Austrians in Bavaria, only that they had taken Passau and threaten'd Braunau, and that the Commandant of Straubingen had set fire to the Suburbs on Advice that a Detachment from the Count's Army was coming to besiege it.

Last Thursday Se'nnight in the Afternoon the Gunpowder Works about a Quarter of a Mile from Delft in Holland blew up, by which 8 Mills in the Neighbourhood were destroy'd, the Stables belonging to the Powder-house demolish'd and most of the Horses kill'd, together with four of the Men that were manufacturing the Powder, several great Trees were torn up by the Roots, Gardens quite ruin'd, many Houses very much damag'd on the Outside and the China and other brittle Ware within broke to Pieces, Gates that were shut with Iron Bars were forc'd open by the terrible Blast of the Powder, and never was there a more universal Terror than what the Inhabitants were struck with upon this Occasion; and had it not been for the Care of the Magistrates, the whole Town might have been utterly destroy'd by the burning Posts, Splinters, &c. which fell upon the Houses.

Letters from Gibraltar of the 9th of January say, that Commodore Lestock arrived there the 1st ditto, with five Men of War of the Line from England, and sailed the 5th for Port Mahon, with eleven Men of War of the Line.

Last Week Michael Harvey, Esq; and John French, Esq; were chosen Members of Parliament for Milbourn-Port in Somersetshire.

Last Week two of the Sheep-stealers, viz. Stephen Bourne and Benjamin King, lately committed to Cambridge Jail, found Means to make their Escape from thence, and have (notwithstanding diligent Search has been made after them) not since been heard of.

On Friday last the Lady of Sir Edmund Thomas, Bart. Member of Parliament for Chippenham in Wiltshire, was safely deliver'd of a Son, at his House in New Bond-street.

Concerning Gleets *and* Seminal Weaknesses *of all Kinds.*

ALL judicious Physicians and Surgeons allow, that nothing is more difficult to cure than Stubborn Gleets and Seminal Weaknesses, whether occasion'd by too severe purging for Venereal Injuries, violent Strains, Pollutio sui, or any other Cause whatever; and that they are dangerous in their Consequences, as well as difficult to cure, is as certain, since they exceedingly weaken the Generative Faculties, infeeble the whole Nervous System, often bring on Hectick Heats, a Tabes Dorsalis, or Consumption of the Back, or an Atrophy or Nervous Consumption, which frequently terminate in Death itself.

All such, therefore, who have the Misfortune to be troubled with Old or Stubborn Gleets, Seminal Effusions, Involuntary Emissions, excessive Nocturnal Pollutions, or any Weakness of the Kidneys, Ureters, or Bladder, the Diabetis, or Incontinency of Urine, or Difficulty of holding their Water, would doubtless be glad to meet with a certain, safe, and speedy Cure, which they most assuredly may, by taking only a small Quantity of a transcendent BALSAMICK RESTRICTIVE ELECTUARY, now published for a general Good; after having for many Years been experienc'd never once to fail perfectly curing the most Stubborn Gleets known, in a few Days, without Difficulty or Trouble; as also all other Weaknesses of the Back, Reins, Seminal Vessels, and Urinary Passages, whichit almost instantly cures, bringing to rights and restoring all those Parts and Passages to their natural Tone and pristine Vigour, in a very extraordinary Manner, and by taking a few Doses of it only.

This transcendent BALSAMICK RESTRICTIVE ELECTUARY is neither disagreeable to take, nor occasions the least Disorder, but is a wonderful Restorative in all Weakness and Decay of Constitution of any Kind, and particularly strengthens the Back, Reins, Seminal and Urinary Vessels to an immense Degree, insomuch that in any Debility of them, one Dose of it does more than ten of any other Remedy yet found out; and all Persons fatigu'd with Gleets or Seminal Weaknesses of any Sort, or Weaknesses of the Urinary Vessels, who take it, will in three Days time find it so very effectual, that they will be most agreeably surprised at it.

When a Medicine will infallibly accomplish such a safe, speedy and perfect Cure of such difficult Maladies, as Gleets and Seminal Weaknesses are, as this Great Remedy truly and directly will, even after all other Means and Medicines have been tried in vain; too much cannot be said in it, and this All who ever took it for any of the above-mention'd Purposes have readily declared.

The Price is but 6 s. a Pot, altho' for its absolute Efficacy one Pot alone being sufficient in most Cases to accomplish a Cure, worth ten times as much, and by the Author's special Appointment, is to be had only at Mr. Radford's Toy-shop, at the Rose and Crown against St. Clement's Church-Yard in the Strand, ready sealed up, with a Book of Instructions, which whomsoever carefully reads will perfectly know, when the Gleet or Weakness he is afflicted with exceeds a Venereal Injury, whether all the Malignity of the Foul Disease is intirely eradicated or not.

Note, Ask only for a 6 s. Pot of Balsamick Electuary.

The only infallible and speedy Cure for the most confirmed LEPROSY, either of the Moist or Dry Kind,

By a pleasant Electuary that has been sold (for several Years past) by the late Mr. Parry, in Boar's-head Court, Fleet-street, with much, and happy Benefit to the Publick; and is now sold only by Mr. Read, for 5 s. a Pot, with Directions, at his House is White-Fryars.

N. B. You turn in just by the Sun Tavern in Fleet-street, and it is the great Corner House in White-Fryars; James Read, in great Letters, is wrote over his Door.

FOR all Leprous and other scabby Breakings out on the Skin, whether of the whole Body, or in particular Parts only, this is the only sure and easy Method of Cure, being an incomparable pleasant Electuary, which, after all the usual Methods and Medicines, even Salivations tried in vain, perfectly eradicates those inveterate Maladies, tho' of many Years standing, so as never to return again, accomplishing that in a few Days, which no other Means can possibly perform in many Months, and that with the greatest Safety in the World, and without any Confinement, as has been happily experienced by many Hundreds.

Common Itches, and other slight Foulneffes of the Skin, compleatly cures almost in an Instant, without Trouble; and for the worst Scabbiness, and most grievous Leprosy, may certainly be depended upon as absolutely infallible, as the Patients themselves in three Days Time will sufficiently find.

N. B. This noble Specifick Electuary may be taken with equal Success in extreme Weather, hot or cold, by following the printed Directions given with the Medicine.
